**Overspray,
under control.**

3M™ Clean-View Pad 5850

Uncover the clear advantage of multilayer protection for paint booth surfaces.

3M™ Clean-View Pad 5850 is the clear choice for protecting light fixtures and other paint booth surfaces against overspray during priming, coating or painting.

- Transparent for better light and clear visibility of painting operations — 85%+ light transmission through full 20 sheet pad.
- Removable lined film backing for easy handling and reduced setup time.
- Acrylic adhesive removes cleanly from most surfaces.
- Helps eliminate the labor, mess and disposal associated with conventional cleaning solvents and chemicals.

Individually tabbed and numbered sheets remove quickly and easily, exposing a clean sheet ready for use.
